

CHIANTISHIRE TRASURE HUNT IN FLORENCE

In a tapestry of stories and legends narrated by your guide, your children will embark on a journey into the past, seeking out statues, famous paintings and characters that have shaped the history of Florence.

This experience is more than just a treasure hunt; it becomes a true mission. Children will solve mysterious puzzles, colour drawings, follow a map and recover a hidden treasure.

During the treasure hunt, there will be opportunities for the children to rest and enjoy some ice cream. At the end of the adventure, they will receive prizes for their excellent work.

This is not a typical tour. Throughout its duration, the main protagonists are the children, who, along with their family, will have fun discovering the beauty and secrets of this fascinating city. The tour is suitable for children over 6 years old.
